

# MIMO TANK

MOBILE CASH HANDLING SOLUTIONS

## It's time to get moving!

**MIMO Tank** combines everything you love about MIMO cash automation technology with the **boundless freedom of mobility**.

**MIMO Tank** accepts, dispenses, and validates all cash transactions, putting an end to exhaustive verification and excessive counting. Automate cash-handling operations and spend less time managing cash, with more time to focus on your core business. Master your money and start feeling confident.

**MIMO Tank** travels with you to securely collect cash from outlets around your venue, eliminating the long, crowded march to the cash room at the end of the night, and significantly reducing the amount of cash that employees have sitting in their tills during the day.

**Most MIMO customers see an ROI  
in as little as 12 months!**

# "A perfect choice for parks, zoos, and venues with a large footprint..."

During an event, battery-powered **MIMO Tanks** can be traveling all over your venue, collecting cash from each concession location, gift shop, ticket booth and more for **secure storage** and verification. **MIMO Tank** easily travels from register to register to collect cash throughout the event, **reducing your runners** and the amount of bulk cash coming back to your vault at the end of the night.

After logging in, a cashier only needs to press one button to begin dispensing or depositing their cash, and **individual receipts** can be distributed at each location your **Tank** visits. Transactions are now faster than ever with **MIMO Tank's** intuitive software, increased strength, and innovative vault technology.

MIMO's revolutionary **Back Office** streamlines your vault with access to detailed reports, custom alerts, and clear visibility of your cash and coin status at all times.

**Significantly reduce security risks in the field** with MIMO Tank's secure cassette storage.

**Your runners never even have to touch the cash!**

**Reduce the cash outside your cash room,** and eliminate individual cash-counting at multiple locations throughout the day.

## **Wireless capability**

means instant communication and visibility from wherever **MIMO Tank** is stationed, offering real-time inventory tracking and detailed custom reports. Your fleet of **MIMO Tanks** may be traveling across your venue, but the cash room is still right at your fingertips.
