## MIMO SMARTSAFE

The MIMO Smart Safe streamlines cash management for retail and convenience stores by providing a secure, on-site solution for depositing excess cash. Reduce register exposure, minimize shrink, and enhance security while ensuring your business operates with only the cash needed for transactions. With advanced technology and seamless integration, the MIMO Smart Safe keeps your cash protected and your operations running smoothly.

**Secure, Efficient, and  
Designed for Retail,  
Cannabis Dispensaries,  
and Convenience  
Stores**

### The Details

With an industry-leading deposit speed of 6 notes per second, employees can quickly and securely store excess cash, ensuring registers remain stocked only with the amount needed for transactions. The bulk note feeder allows up to 200 notes to be deposited at once, while a four-way insertion design makes transactions smooth and error-free. The unit also features a 7-inch touchscreen display for an intuitive user experience.

With dimensions of 30" H x 10.5" W x 20" D, the MIMO Smart Safe is compact yet powerful, making it the perfect fit for busy retail and convenience store environments. Keep your business secure, efficient, and in control with the MIMO Smart Safe.

**Secure your cash and simplify your operations today with the MIMO Smart Safe!**

## MIMO Smart Safe – Secure, Fast, and Reliable Cash Management for Retail, Cannabis Dispensaries, and Convenience Stores

The MIMO Smart Safe goes beyond standard safes by incorporating full note scanning, including dye stain detection, serial number reading, and superior counterfeit rejection, ensuring every deposited bill is authenticated and traceable. Its one-way transport path increases reliability and prevents tampering. The flexible design allows for easy integration next to a register or under a counter, adapting to your business's unique needs.

### Key Benefits of the MIMO Smart Safe:

- ✓ Enhanced Security – Keeps excess cash secured in real-time, reducing cash drawer exposure and minimizing theft risks.
- ✓ Faster Deposits – Bulk deposit up to 200 notes at once with a blazing 6-note-per-second processing speed.
- ✓ Superior Authentication – Built-in counterfeit detection
- ✓ Streamlined Cash Handling – Eliminates counting errors and ensures accurate deposits every time.
- ✓ Flexible Integration – Easily integrates with other MIMO products
- ✓ User-Friendly Design – Intuitive 7-inch touchscreen display for easy operation.
- ✓ Reliable and Durable – Engineered with a highly dependable one-way transport path for smooth performance.
